### Allegra's Words of Gratitude

I want to start off by thanking the International Student Support Program for this award. This award is the best I could have received and wished for. As an international student who came here with a dream in mind, this award makes every effort worth it.

I came to Santa Barbara City College knowing nobody but my wish was to be as much involved as possible. I started as a member of the Ambassadors program and worked my way to the student government. I am so grateful for the opportunities that I had and the support from my international community.

Thank you to the International Student Support Program for acknowledging my work and my involvement at school. Thank you SBCC for the opportunity to be great and to be able to embrace all of your amazing programs. I am filled with so much gratitude and appreciation, I will cherish this award forever.

Thank you
